EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Daniel Geselowitz on 2/21/06.

The application has been amended as follows:

In the specification, on page 14, line 13, the groups "R³ and R⁴" have been changed to -- R² and R³ -- to correct typographical errors.

In Claims 5-6, line 1, delete "1" and insert -- 3 -- to change the dependency of the claims because Claims 8 and 9 depended on Claims 5 and 6 do not have an antecedent basis for formulae (IV) and (V).

In Claims 5-6 and 11-12, line 2, insert -- further -- before "comprising" to clarify the additional compound, added to the composition.

2. The following is an examiner's statement of reasons for allowance:

The present invention discloses a chiral nematic liquid crystal composition comprising at least one optically active compound of formula (I-a) and at least one optically active compound of formula (II-a), in which the compound of formula (II-a) must have the same helical twisting direction as the compound of formula (I-a) with a helical twisting power (HTP) of at least 3. The compounds of formula (I-a) and (II-a)

show the negative and positive temperature dependency, respectively, for the natural pitch in the present liquid crystal composition. Also, see the comparison of the present invention with JP 9-217062 in the remark (filed 12/12/05) and Table 1 in the present specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
